INSTRUCTIONS.

The windows on the right hand side remain the XXXX same, but there will be a slight change in the railing as this will be the entrance xx to the Coffee Shoppe and Barber shop in the basement. The entrance on the right hand side XXXX has been decidedly changed. The Marquee is supported by chains eliminating the old pillar supports on the side. The steps have been remodelled eliminating the railing in the middle. Each side of the entrance has massive brick walls with stone trim and a large urn on each side. The entrance shown on the photograph on the front of the bldg.has been XXmoved over one store and the Marquee moved over as per enclosed sketch. The entrance on the front is directly on the side walk level. It is an elevator corridor entrance. Wording on the sign which is not readable is shown on rough sketch enclosed. There is no sign on the roof of the bldg. The stores when the remodelling is completed will all come out flush with the side walk and the junky appearance entirely eliminated. The space shown on the photo as the entrance to the Coffee Shoppe and Postal Telegraph will be occupied by one beautiful store. The drug store front will also be changed. Front entrance will be the next and the corner will be a beautiful store. Telegraph wires should be eliminated and a decided Metropolitan atmosphere prevail. If you will place the rough sketch over the photograph you have in your possession you will possible get a better idea as as to the change.

INSTRUCTIONS

Note that the building faces south, and do not let the artist put a sunset in the background. Put a flag on the pole; retouch name on bldg. at top of portico to bring out the name more plainly. The building is of white stone; window frames are of olive green steel, and window drapes are gray.

The building is devoid of color and we suggest you put some bright flowers on the shrubs along the base of the building.

A picture wih a large expanse of lawn was recommended because it pictures the building in ideal surroundings. Make a post card of the type of 77-30.

There is XX a sign on the outisde of the building announcing the opening, which Mr.Phelps does n t want removed yet, therefore it will have to be blotted out on the photo. However is the photograph requires an excessive amount of retouching advise us.

NOTICE

The layout is OK., with the exception of the heavy borders, which should be eliminated in preference to one of a colonial or lighter effect. Also leave off the art work, and in place draw in a small spinning wheel.

INSTRUCTIONS.

The photo enclosed would be all right if it were not for the appearance of the bedroom windows; somw of which are open at various heights and others closed. Other objection to the photo is the Coffee Shoppe sign shown at the extreme right end of the ground floor which has been discontinued.

It is my desire to have you make a card similar to the enclosed card showing the Vance Hotel of Statesville, N.C. I am of the opinion that the architect's print when reduced in size to correspond with the Vance Hotel, might be very satisfactory. The other two views which we desire shown would be a lobby view and a dining room view. In the case of the lobby view, you might use a new photo which you have, if in your judgment it would make a more desirable picture than the cut used here-to-fore. The dining room pictures enclosed are somewhat dark, but your artist might be able to use one of these pictures by lightening it ~~XXX~~ up some, and putting into the cut some color in accordance with a description of the actual coloring in the back of one of the photographs.
